

Conducting Seminar

JUNE 17-21, 2019

with

DR. GARY BONNER & DR. JUDD BONNER

Those who have attended **Dr. Gary Bonner's** seminars describe their experience as "challenging", "inspirational", "stretching", "life-changing", "a week of unbelievable growth." As conductors return to their schools and churches, they begin to develop a changed choir, which sounds better, sings with greater feeling and understanding, and demonstrates increased respect and appreciation for the conductor. Join the more than 800 conductors who have studied with Dr. Bonner, some of whom return year after year. It is an intense week with 50 hours of video-recorded, personalized conducting instruction, a class size which is limited to 22, and introduction to 50 of the year's best new choral selections.

Dr. Judd Bonner, co-leader of the Conducting Seminar, was previously California Baptist University Dean of the School of Music, Professor of Advanced and Master's conducting I and II, and conductor of the Male Chorale and the University Choir and Orchestra. He currently co-directs The Gary Bonner Singers, offers Choral Workshops and choral clinician consulting, and has been active in church music for 30 years.

The voices of choral directors:

Dr. Bonner's conducting seminars have been instrumental in not only my growth as a conductor of college students, but in the development of my own leadership style. Every seminar has come with valuable lessons that I have been able to apply in areas of relationship building, leadership, entrepreneurship and growth, and recruiting strategies.

Tom Ruscica, Division Chair, Music and Creative Arts; Music Department Chair; William Jessup University, Rocklin, CA

Dr. Bonner has an innate ability to work with conductors at all levels of experience, providing them with input that is personalized and effective. Whether one is leading a school choir, community chorus, church choir or ensemble of any size, Dr. Bonner's choral conducting seminar is designed to equip choral leaders with the tools necessary to greatly enhance the music-making process.

Steven Kirkpatrick, Founder and Conductor of Central Texas Master Singers, Belton, TX

I was amazed every time I heard Dr. Judd Bonner's choir and orchestra at Cal Baptist. In their incredible sound, I heard a unified desire to create something special with each and every song. That kind of unity only comes under the direction of a great leader. The end result was one of the best collegiate groups I have ever heard.

Cliff Duren, Composer, Arranger; Worship Leader, Brentwood Baptist, Brentwood, TN
